REPORT DATE

1. CDSCO approves Zydus Lifesciences' generic heart failure drug

CDSCO | 2025-06-18 CDSCO Approval

The Central Drugs Standard Control Organization (CDSCO) has approved Zydus Lifesciences' generic version of sacubitril/valsartan, a combination drug used in the treatment of heart failure. This approval marks a significant milestone for the Indian pharmaceutical market as it is the first generic approval for this molecule in India. The drug, originally marketed by Novartis as Entresto, had global sales of over \$5 billion in 2024.

2. FDA approves AstraZeneca's rare disease gene therapy

FDA | 2025-06-15 FDA Approval

Food and Drug Administration has approved AstraZeneca's gene therapy for the treatment of metachromatic leukodystrophy (MLD), a rare and fatal inherited neurological disorder. The therapy, priced at \$2.8 million per treatment, is the second gene therapy approved for MLD globally. The approval was based on data from 31 patients showing sustained clinical benefit at 3-year follow-up.

3. Glenmark gets USFDA approval for dermatology product

Glenmark | 2025-06-16 FDA Approval

Glenmark Pharmaceuticals has received approval from the USFDA for its topical cream for the treatment of inflammatory skin conditions. The product is the generic equivalent of a branded product with annual US sales of approximately \$120 million. Glenmark plans to launch the product in the next quarter.

4. Biocon Biologics reports Phase III data for insulin biosimilar

Biocon | 2025-06-15 Phase III Success

Biocon Biologics has presented positive Phase III data for its insulin glargine biosimilar at the American Diabetes Association conference. The study met its primary endpoint demonstrating bioequivalence to the reference product. The company plans to file for regulatory approval in Europe and India in H2 2025.

5. Torrent Pharma acquires German specialty pharma company for ₹450M

Business Wire | 2025-06-16

M&A Activity

Torrent Pharmaceuticals has announced the acquisition of Berlin-based specialty pharmaceutical company Heumann Pharma for ₹450 million. The acquisition gives Torrent access to Heumann's portfolio of 85 registered products across cardiovascular, CNS, and pain therapeutic areas in Germany and Eastern European markets. The transaction is expected to close in Q3 2025, subject to regulatory approvals.

6. Alembic Pharmaceuticals receives EMA approval for oncology product

Alembic | 2025-06-13

EMA Approval

Alembic Pharmaceuticals has received marketing authorization from the European Medicines Agency for its generic oncology product used in the treatment of multiple myeloma. This is Alembic's second EMA approval for an oncology product in 2025.

7. Lupin gets orphan drug designation for pediatric rare disease candidate

Lupin | 2025-06-14

Clinical Trial

Lupin Limited has announced that its novel small molecule candidate for the treatment of Duchenne muscular dystrophy has received orphan drug designation from the FDA. The designation provides Lupin with 7 years of market exclusivity upon approval and waiver of FDA application fees. The candidate is currently in Phase II clinical trials with 48 patients enrolled across 12 sites in the US.

8. Strides Pharma secures licensing deal for emerging markets

Strides | 2025-06-14

Licensing Deal

Strides Pharma Science has entered into a licensing agreement with a European pharma company for the commercialization of 12 oral solid dosage products in Africa and Southeast Asian markets. The deal includes upfront payments of \$8 million plus double-digit royalties on net sales.

9. Dr. Reddy's launches generic cardiovascular drug in US market

Dr. Reddy's | 2025-06-18

FDA Approval

Reddy's Laboratories has launched its generic version of amlodipine/atorvastatin combination tablets in the US market. The product is the generic equivalent of Pfizer's Caduet. The company has received approval from USFDA for the abbreviated new drug application.
